| Issue | Title | Description | Date | Time | Duration |

| Family-supporting jobs, especially among inner city males, and welfare reform. | Editorial | The people and politicians of this state must face the issue of how we will move people and things in our future. The ways to start is with regional thinking and regional decision-making – and, with thought and with determination. | 3/3/98 | 8:56 AM, 11:59 AM | 1 minute |

| A transportation system to move people between jobs and homes. | Editorial | This summer, rail commuting will be implemented with Amtrak running to and from Watertown at the edge of the western suburbs. The test of the stress and congestion free alternative may be very important when we resume planning the regional transportation system of our future. | 4/2/98 | 8:56 AM, 11:59 AM | 1 minute |

| | Editorial | A Madison jury's decision that Gerald Turner is no longer a "sexual predator" has the state's legislature jumping up and down about what they call "truth in sentencing." That's the proposal to do away with probation and parole and to require convicted criminals to serve the full length of whatever sentences they get. Just fix the law to allow judges to tell criminals exactly what the sentence means. | 2/5/98 2/6/98 | 8:56 AM, 11:59 AM 1:05 AM | 1 minute |
| | Editorial | Gun safety is the latest wrinkle in the gun control debate even though gun accidents account for only four tenths of one percent of all deaths – for all reasons – among children. We don't need more regulations. We need to enforce the regulations we already have. | 3/12/98 3/13 | 8:56 AM, 11:59 AM 1:05 AM | 1 minute |
